Opis sajta i sekcija:

## Stranica: index.html

Header

- **Header** se sastoji iz logo-a i dinamički ispisanog menija. Meni je responsive , tako da na uređajima koji su ispod 768px širine ekrana pojaviće se „hamburger" koji se na klik otvara od gore.

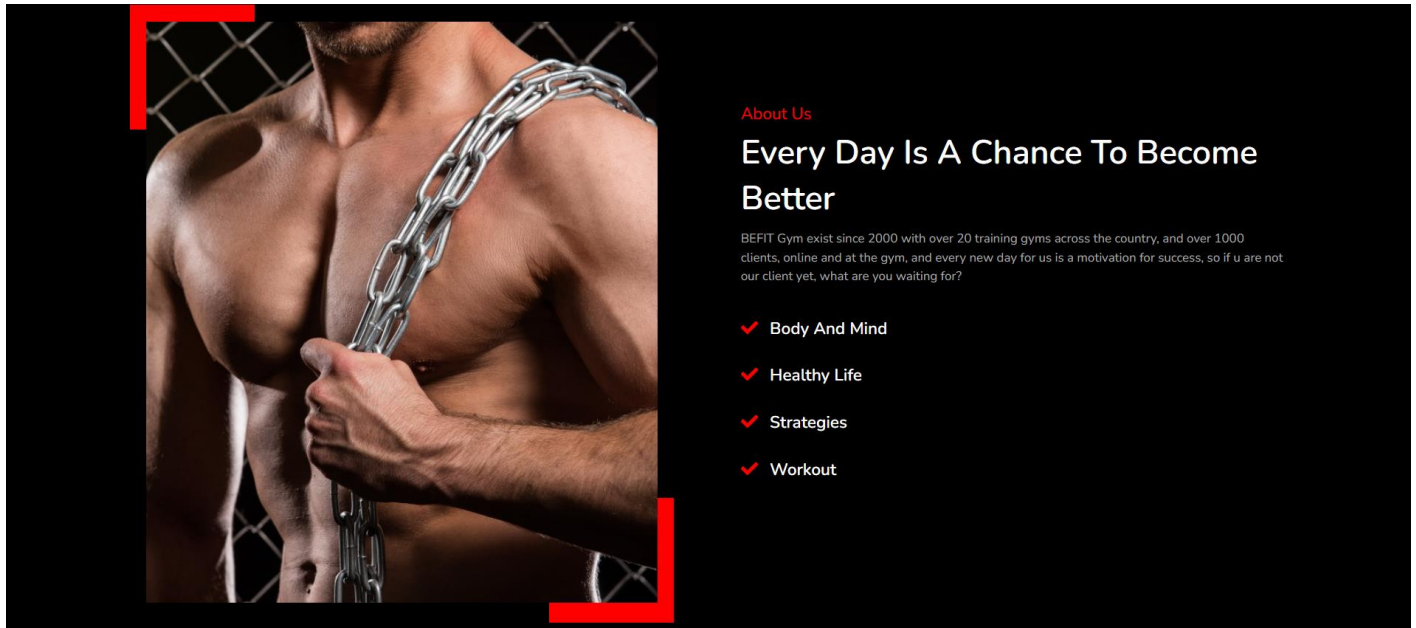

Home

- Sekcija **Home** , koja se sastoji iz tri slike koje su pozadinske za tu sekciju i one se dinamički menjaju podešenim tajmerom na svakih 5 sekundi.

About

- Sekcija **About** u kojoj se nalazi kratak opis teretane , i stavke koje su takođe ispisane dinamički.

Features

- Sekcija **Features** , ispisana dinamički i ona pokazuje neke osnovne karakterisitke teretane.
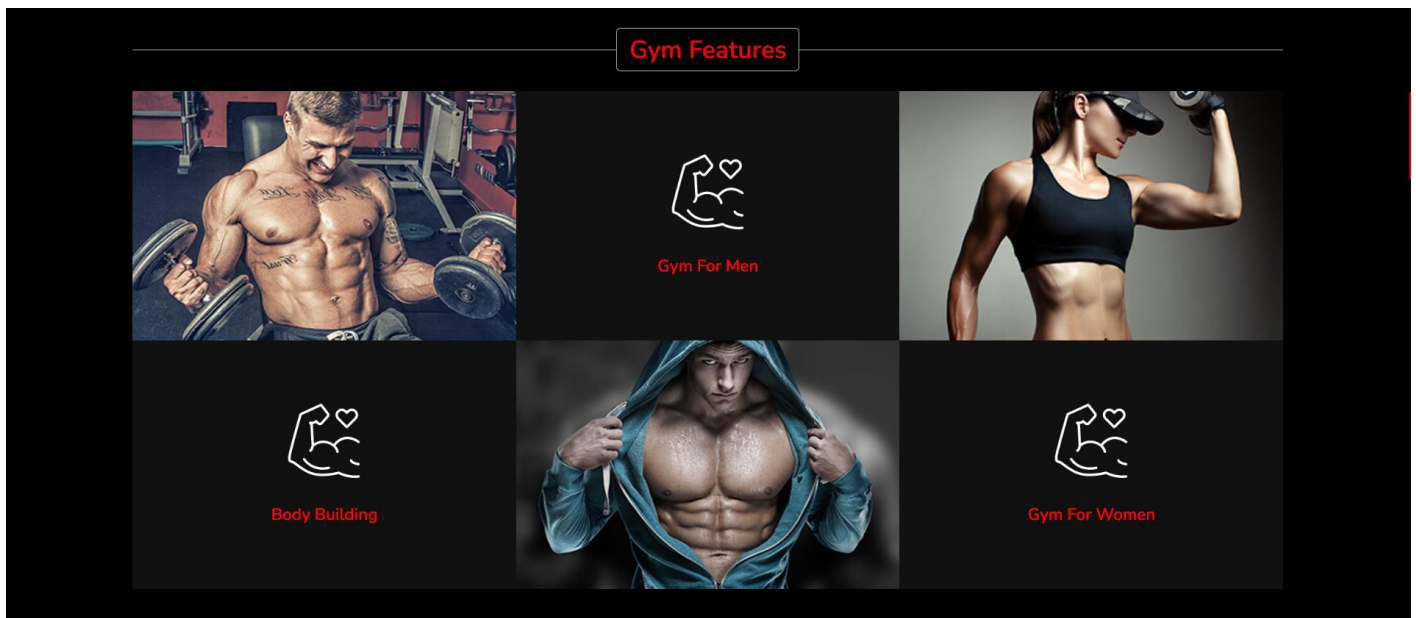

Pricing

- Sekcija **Pricing** , u kojoj su navedeni dostupni planovi teretane , **Basic i Premium**, i njihova cena. Oba plana su ispisana dinamički.
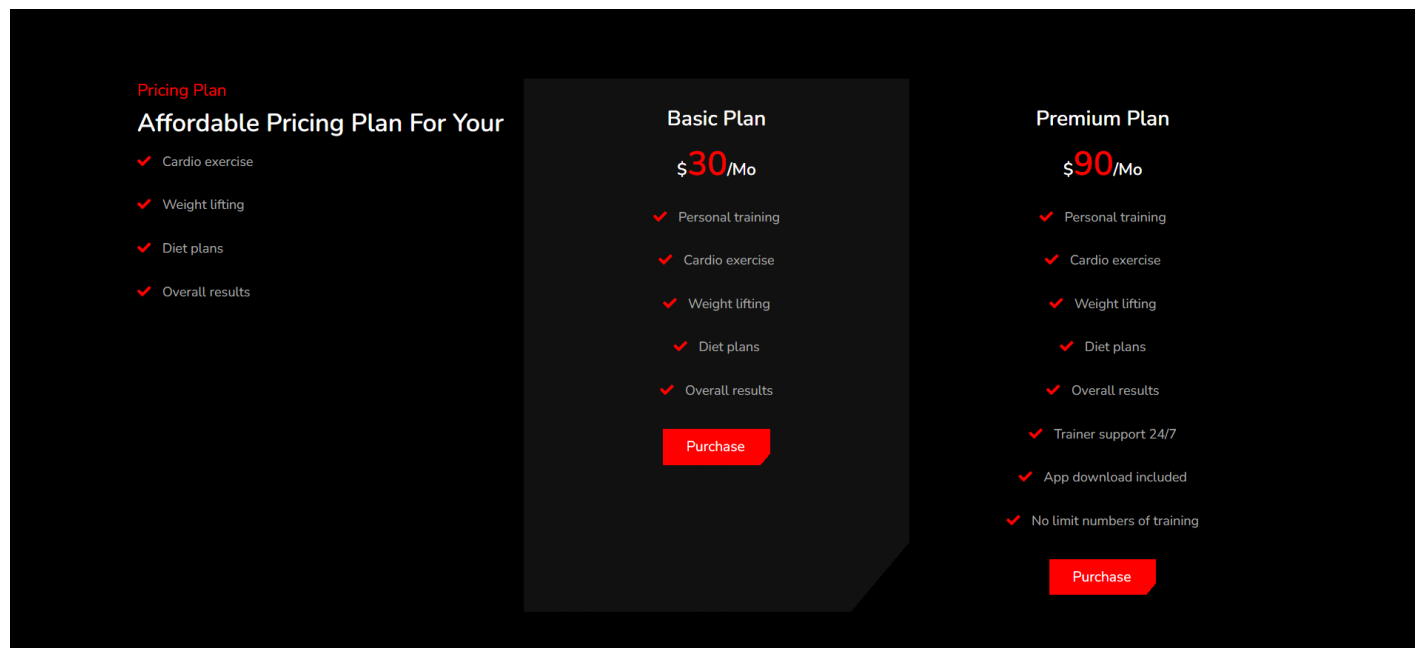

Trainers

- Sekcija **Trainers**, predstavlja trenere u teretani koji rade sa klijentima. Prelaskom preko polja sa imenom trenera polje se podiže i prikazuju se dodatno linkovi socijalnih mreža trenera. Treneri su takodje ispisani dinamički u pozadini pomoću JavaScripta.
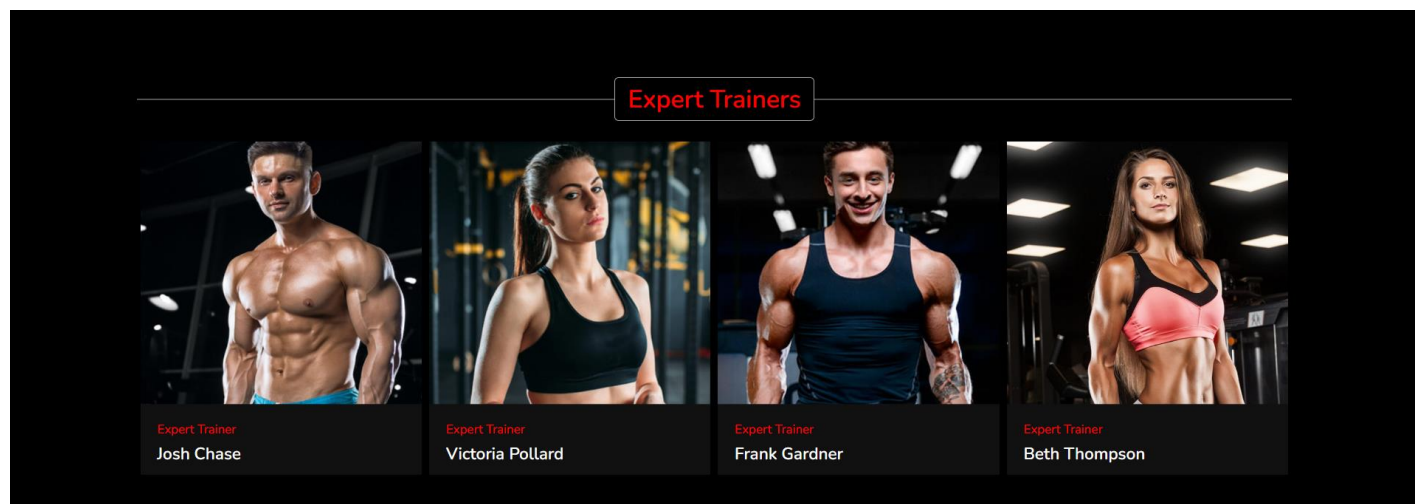

Discount

- Kratko obaveštavajuće polje za korisnike , da je u toku popust na planove , ukoliko se pri popunjavanju forme unese promo kod.
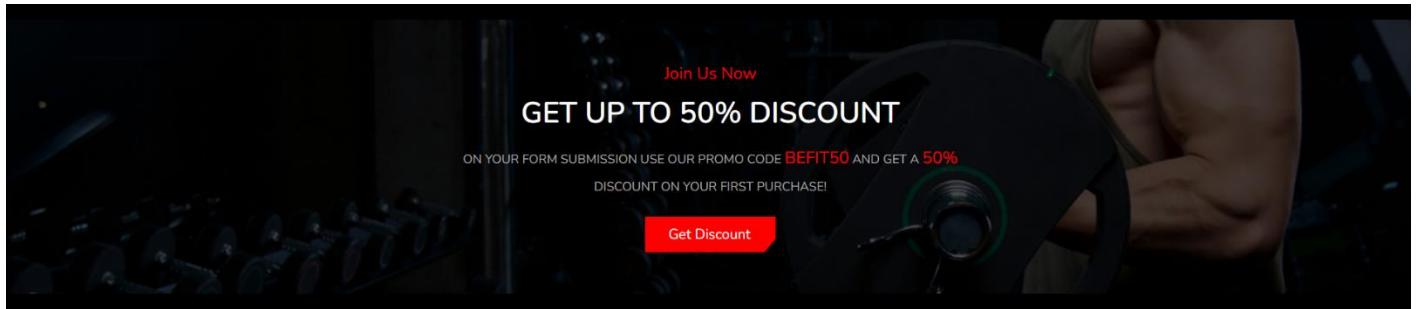

Testimonials

- Sekcija **Testimonials** , prikazuje neke od utisaka klijenata tokom korišćenja naših planova. U sekciji je korišćen Swiper.js , koji sam "premotava" utiske sa delay-om od 5 sekundi, a takodje postoji i mogućnost samostalnog premotavanja od strane korisnika. Ova sekcija je takođe ispisana dinamički u JavaScript-u.
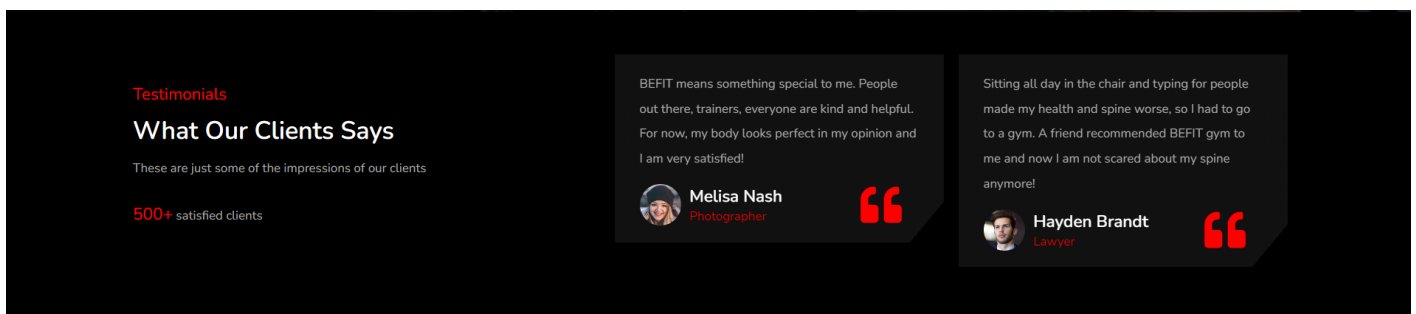

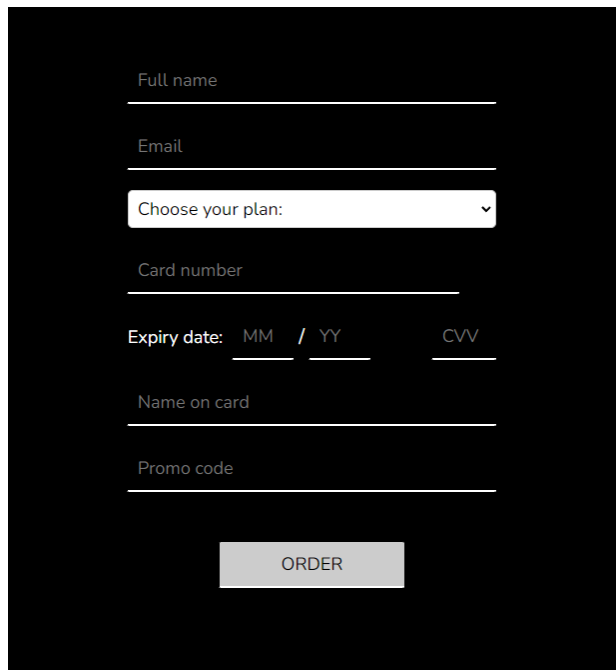

Blogs

- Sekcija **Blogs** , takođe rađena pomoću Swiper.js , "premotava" blog postove na 5 sekundi , ali i sam korisnik može premotavati postove pomoću kružića ispod postova. Blog postovi su ispisani dinamički takođe.
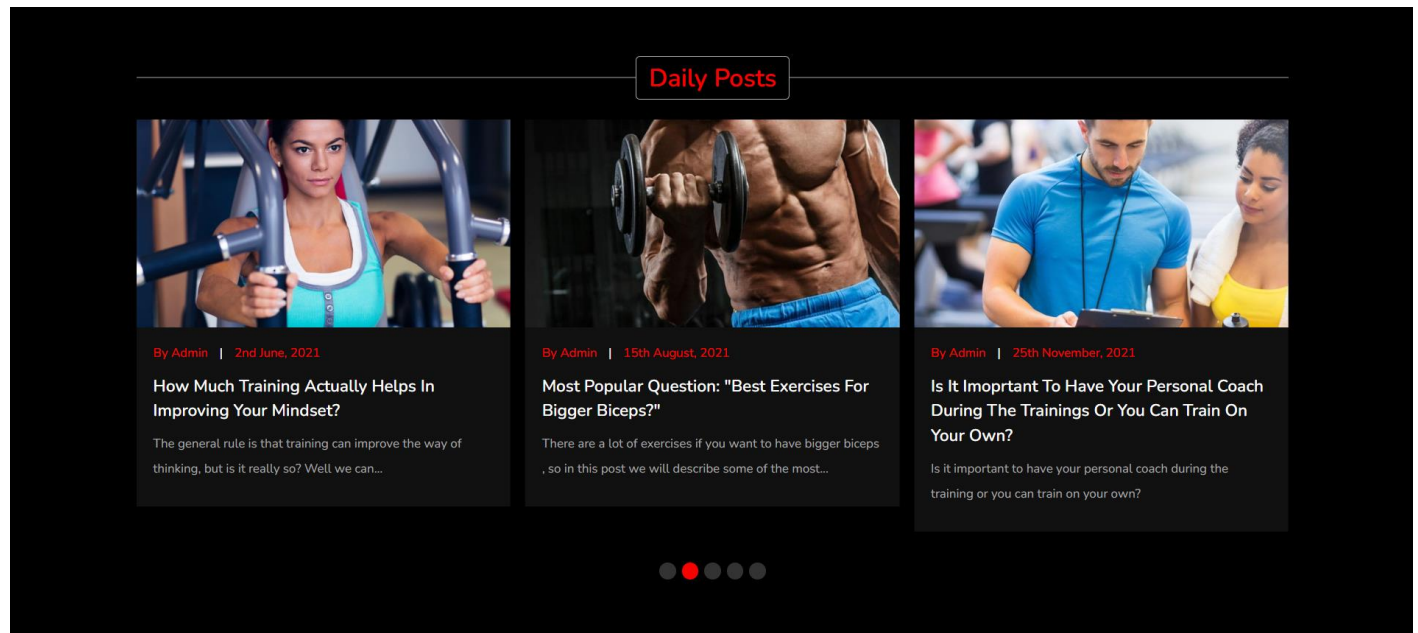

Form

- Sekcija sa formom za popunjavanje , je glavna za poručivanje plana u teretani. Forma poseduje regularne izraze za svaki element u njoj i bez njihove pravilne ispunjenosti forma , tj. podaci iz forme , neće biti prosleđeni u bazu. Regularni izrazi se proveraju nakon izlaska iz svakog elementa i na osnovu toga se ispisuje tekst o upozorenju ako je loše popunjeno polje i u istom trenutku donji border elementa dobija crvenu boju kao i cela forma, da bi pri pravilnom popunjavanju elementa donji border dobio zelenu boju , a cela forma nakon pravilnog popunjavanja svih elemenata u formi. Izrazi se još jednom proveravaju klikom na dugme **ORDER** i tek nakon toga se podaci prosleđuju. U formi je korišćen **jQuery plugin** koji pri pravilnom popunjavanju forme klikom na dugme pravi efekat **„fade"** na formi , forma se resetuje i stranica se učita ponovo.
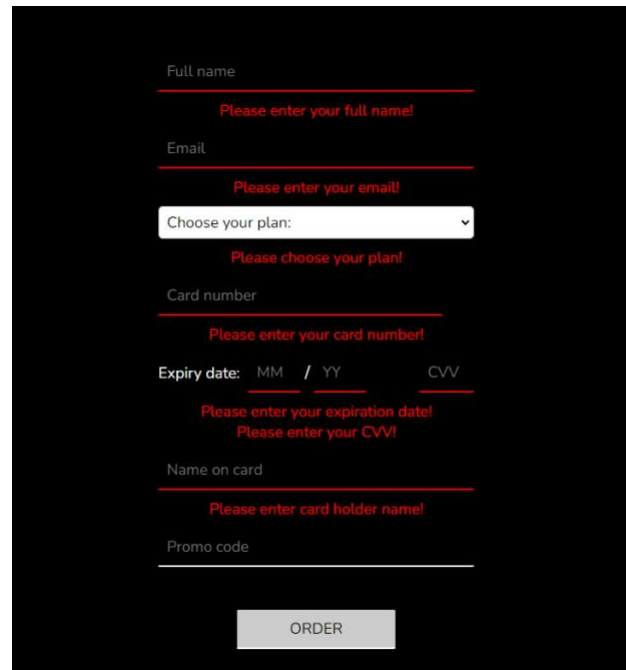

Footer

- **Footer** sadrži dinamički ispisane korisne linkove u pozadini, satnicu rada teretane tokom nedelje , kontakt informacije , i polje za unos mejla radi dobijanja nekih novosti , promocija , itd. i to polje ne sadrži regularni izraz već je to obezbeđeno unosom input-a tipa **email.**

Stranica: author.html
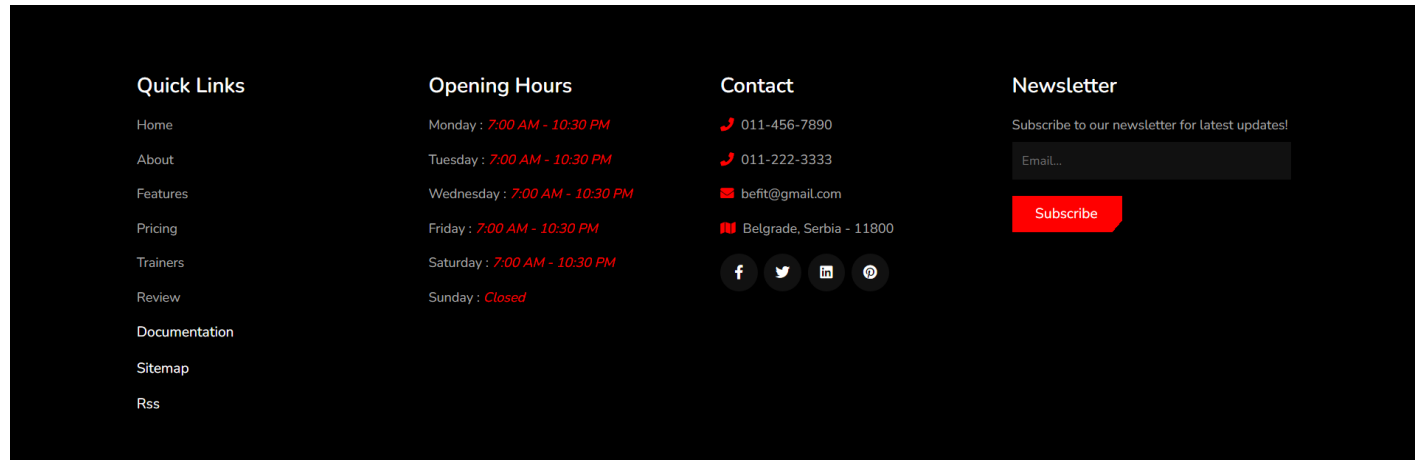

Header

- Sekcija **header** kao i njen **meni** imaju iste karakteristike kao i na stranici **index.html**

About-author

- Sekcija **about-author** sadrži Swiper.js swiper tipa "cube" , tj. pregled informacija o autoru stranice se vrši tzv. "vrtenjem" kocke u horizontalnom smeru.
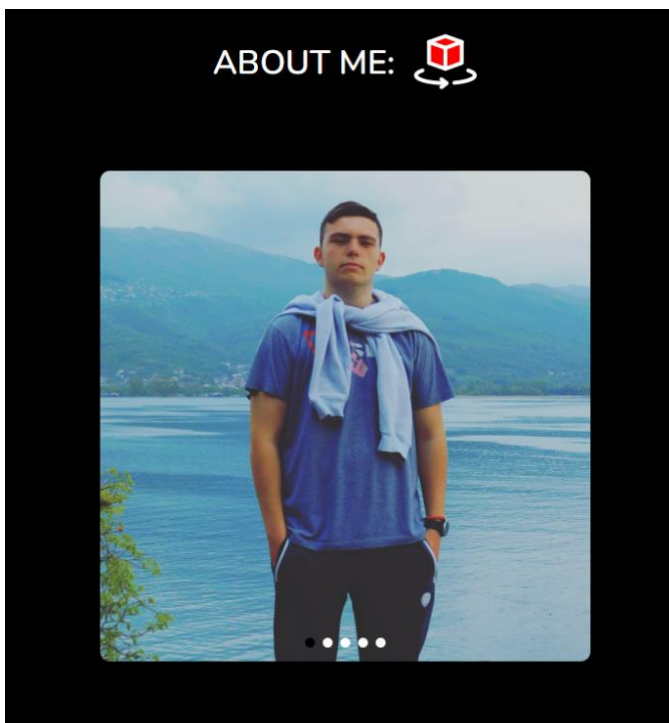

Footer

- **Footer** je takođe isti tako da ima iste karakteristike tj. osobine kao i na stranici **index.html**

            and my passion is web development. My dream is to have a full-time or
remote job and build the best websites
            in the world. I'm learning new web development languages every day and I'm
surprised how interesting it all is.
